

Martin County Hospital District Receives Achievement through the 2022 Digital Health Most Wired Survey

Stanton, TX October 11, 2022 – The College of Healthcare Information Management Executives ([CHIME](#)), has released their coveted Digital Health Most Wired Survey results for the 2022 data collection period. Martin County Hospital District is proud to announce our Level 8 achievement for the Acute and Ambulatory survey selection.

Among the more than 38,000 organizations surveyed by CHIME, Martin County Hospital District ranked above peers in categories like analytics and data management, population health, infrastructure, and patient engagement. The survey assessed the adoption, integration and impact of technologies in health care organizations at all stages of development, from early development to industry leading.

“We are proud to honor your team’s exceptional dedication to excellence in digital health,” said CHIME President and CEO Russell P. Branzell. “Your pioneering performance in the industry inspires other organizations by example. Patients in communities around the world receive better care when you drive change through digital transformation, as you have proven through your success in this rigorous program.”

The Digital Health Most Wired survey and recognition program serves as a comprehensive “Digital Health Check-up” for healthcare organizations across the world. As success in digital health increasingly determines the quality of patient care, the scope of the CHIME Digital Health Most Wired survey reflects the progress of leading healthcare providers as they reinvent healthcare for a new century.

“Martin County Hospital District has worked very diligently to improve and maintain our organization’s digital health. The last 3 years have been challenging for healthcare organizations in many ways. Finding solutions to improve access to care and information has been a priority,” said Jeff Deslaurier, Information Technology Director. “We are proud to be one of only 317 facilities nationwide recognized for our work. There were only 14 hospitals in Texas recognized by CHIME for their accomplishments.”

About CHIME

The College of Healthcare Information Management Executives (CHIME) is an executive organization dedicated to serving chief information officers (CIOs), chief medical information officers (CMIOs), chief nursing information officers (CNIOs), chief innovation officers (CIOs), chief digital officers (CDOs) and other senior healthcare IT leaders. With more than 5,000 members in 58 countries plus two U.S. territories and over 190 healthcare IT business partners and professional services firms, CHIME and its three associations provide a highly interactive, trusted environment enabling senior professional and industry leaders to collaborate, exchange best practices, address professional development needs and advocate the effective use of information management to improve the health and care in the communities they serve.
